Hon'ble President
Dr. Rajendra Vikhe Patil

MESSAGE

It has been a great opportunity for me to interact with dedicated teaching faculty, non-teaching staff, Physicians & Surgeons taking care of the patients and the students of this university. What thrills me is their enthusiasm, conviction and commitment towards this organization, participating actively to achieve the vision and mission of this university.

As we move forward to consolidate our achievements, it is equally important to address the challenges, we face being the medical university in rural India. In pursuit of excellence, we look forward to create a state-of-art infrastructure facility for research, improve health care delivery systems and foster International linkages to bring in the best possible International exposure to our students and staff.

I look forward to further strengthen the organization culture of trust, accountability and teamwork at the university as we passionately extend our helping hands to our patients with care and compassion. In this year, the university had made a lot of efforts in the field of international collaborations. The establishment of the Cath Lab at Pravara Rural Hospital will help substantially the poor and needy people in this region.

I am sure as we embark ourselves to achieve higher goals, a future will be rooted in the hearts and minds of all the stakeholders to deliver A Value Based Education and Research Driven Health Care...."

MESSAGE

The Annual Report 2022-23 of Pravara Institute of Medical Sciences (Deemed to be University) is an academic and intellectual destination of distinctive culture and environment create a for ambitious students, promising scholars and dedicated staff to pursue their highest aspirations. It provides an insight in to the growth, development & promotion of initiatives furthering curricular, co-curricular and extracurricular activities of the University and its constituent Colleges/ Institutions, including the annual financial statements.

Our Visionary Founder Padmashri Dr. Vitthalrao Vikhe Patil dreamt, visualized and actualized “Real Gram Swaraj and Rural Development at Loni through co-operative movement which received applaud and appreciation nationally. Our illustrious leader and Mentor, Dr. Balasaheb Vikhe Patil – Padmabhushan awardee, always aimed at strengthening and nurturing comprehensive integrated Rural Development and Health Care Service. He aimed and realized the objectives of human development, especially of rural people and of women through “Education – Health Care and Empowerment.” He made us to “think globally and act locally”! He stresses the importance of knowledge, professional skills, competence and commitment as well as discipline, dedicated and devoted work culture, in national development and gross human happiness index of rural people.

Our Hon'ble Chancellor Dr. Rajendra Vikhe Patil provides us the energetic dynamic leadership. He draws result oriented action plans and accomplishes, them well in time. He purports to provide always the state of the art multi-diagnostic tertiary and super-specialty health care facilities to the rural people and global level professional health education to our students. Achieving excellence of global standard is very dear to him and he believes firmly that it could be attained by establishing interface and dialogue and commission with overseas institutions of symbiotic significance projects. Another area which is of great concern and interest to him is the Tribal Health Care. He ensures that the same be facilitated by consolidating

& expanding through the activities of Health Care Centres and Public Health Extensions and through functional International collaborations and linkages.

In this report, you will read about the achievements made and activities performed by our outstanding students and staff, while working together in the University. The institution that is making strides in education and research and providing a life – changing experience for all those who study here. I extend my best wishes to the faculty and students who are a part of our University and to those who seek to join us in our mission to develop PIMS-DU as a Centre of Excellence imparting quality education, generating competent, skilled manpower to face the scientific and social challenges, with a high degree of credibility, integrity, ethical standards and social concern.

I wish to thank our colleagues for their support in all the university activities and congratulate them for taking the university to greater heights by working towards excellence in teaching, research and extension activities.

Dr. V. N. Magare

Vice Chancellor, PIMS-DU

Consideration of the Idea of a University

Pravara Institute of Medical Sciences

(Deemed to be University)

Preface & Introduction

Pravara Medical Trust was established in 1972 by the rare visionary, most revered and respected, Padmashri Awardee, Dr. Vitthalrao Vikhe Patil, founder of first co-operative sugar factory in Asia, in 1948, at Loni – a remote village of Maharashtra, a feat appreciated by Pandit Jawaharlal Nehru, the then Prime Minister of India. He also initiated and led Pravara cooperative movement for inclusive-holistic rural development, education and health care. The functional and realistic model of integrated, participative, sustainable rural development as well as comprehensive holistic health care and education, successfully launched by the rare visionary and ambassador of socioeconomic change, is popularly known as “Pravara –Loni model of PURA”, commended by Dr. APJ Abdul Kalam, the then President of India.

The Background:

Dr. Vitthalrao Vikhe Patil, a farmer of Loni, a draught prone backward village of Maharashtra, realized the importance of integrated rural development to solve the problems of illiteracy, poverty, hunger, unemployment, social inequality, economic exploitation, poor public and personal health, shelter, clothing and basic amenities in rural areas, which were the real challenges before a young independent India in 1947. The rare visionary was full of ideas, courage and determination to address these issues head on. He initiated the revolutionary cooperative movement of farmers to achieve the impossible – “integrated holistic sustainable rural development”. He aimed at realizing “Gram Swaraj” in true letter and spirit. The cooperative movement of farmers led by him, aimed at the issues of agriculture, livestock development and agrobased industry (1948), primary, secondary and collegiate education (1964) and cooperative banking (1972). All these initiatives started transforming the draught prone backward village towards the path of integrated sustainable rural development – social, political and economical. This realistic cooperative model was appreciated by one and all, across the nation.

In order to address the issues of comprehensive rural health care, he established the Pravara Medical Trust in 1972, Pravara Rural Hospital in 1976 at Loni and several rural health centres in the periphery.

For this illustrious social work and sacrifice, Government of India honored him with the award of “Padmashri” in 1962. Pune University conferred on him the honorary D.Lit in 1978 and established a Chair in his name to undertake research in rural development (1981). Mahatma Phule Krishi Vidyapeeth conferred on him the honorary D.Sc. in 1979.

Film Division of India presented a documentary film on his achievement entitled “Shoulder to Shoulder” in 1953. Veteran Girish Karnad has directed a documentary “Sweet Revolution” in 1986, based on his accomplishments. Shri. Rajamangal Vedekar and Shri. Shivajirao Sawant have written biographic books (1977/1985) on the life and mission of this illustrious leader. We offer our tributes to this rare visionary.

Development, Consolidation and Expansion of Cooperative Movement:

The mission and ideas of this great visionary was further developed and nurtured by his son **Dr. Balasaheb Vikhe Patil**, Padmabhushan Awardee, Parliamentarian (8 times), Statesman, humble social worker and a visionary leader of the masses. He continued the cooperative movement for integrated rural development and further strengthened comprehensive rural health care. To meet the national requirement for qualified health professionals, PMT established a medical college (1984), dental college (1989), college of physiotherapy (1997), College of nursing (1998), College of Pharmaceutical Sciences (2022) and Pravara Rural Ayurved College (2023) all on one unitary campus at Loni, offering health professional education and health care. Unique centres entitled “Centre for Social Medicine” and Centre for Biotechnology were established in 2001 to undertake research and extension activities.

Genesis of the University:

In order to achieve the integrated holistic approach in health care, education and research, Pravara Medical Trust (PMT) took positive steps towards the establishment of a Deemed to be University (with the approval of UGC, MHRD, GOI) by bringing all of its colleges and units of health education and tertiary medical hospital under one ambit/ umbrella, in 2003. Thus, the Deemed to be University was born at Loni-“**Pravara Institute of Medical Sciences (PIMS-DU)**”, a unique feature in Indian professional education system in a rural India. The governance, leadership and management of PIMS-DU are as per regulations governing deemed to be universities, notified by the UGC from time to time (UGC institution deemed to be universities regulations).

Befitting to the vision and mission of the parent trust, PIMS-DU is imparting quality professional health education at global level and tertiary speciality health care at Loni as well as at doorsteps of 234+ villages spread over 13 talukas and 3 districts with a catchment area of lacs of population of Maharashtra state. Our rural health care, extension and community health outreach activities have received International and National appreciation and recognition.

Growth and Development of the University:

PIMS-DU is located on a spacious and green unitary campus of 115 acres at Loni, developed as per the master plan and land scaping, housing all the 6 constituent units and its

rural hospital. It has state of the art building block's for academic and co-academic programmes, multispecialty tertiary medical and dental hospitals as well as residential facility for students and staff in the campus, all within a walkable distance. It is a near cent percent residential campus with all the basic amenities and facilities, round the clock, ensuring a home away from the home. It is providing a good multi speciality hospital for enriching clinical resource and care, central library, IT facilities, safety, security, discipline and basic amenities 24x7 (water, electricity, maintenance) in a rural area, a real practice of "PURA". It has recruited qualified and experienced staff as per norms of statutory bodies. We have encouraged research through funds, facilities, and incentives resulting in significant good number of publications and collaborative research projects and clinical trials. PIMS-DU publishes its own ISSN peer reviewed medical journal. We have collaboration with 25+ international and 50+ national institutions and industries. Teachers and students have visited foreign universities on scholarship/ fellowship through Lineus Palme Exchange Accord and Erasmus+ scheme (only the private deemed university from India included in this scheme). It has attracted 200+ students and faculty from 50+ foreign universities for research and training. Centre for Social Medicine act as Mother NGO and a liaisoning body for government and semi government organizations and national health schemes. PIMS-DU has a sound financial management and governance system with accountability, transparency and integrity. Annual convocations are held regularly since 2007. So far 15 convocations have been organized. We are proud for having contributed qualified and competent, health professional, human resource to the national development (**1657** medical doctors, **825** medical specialists, **1021** dentists, **279** dental specialists, **712** nurses, **154** nursing specialists, **568** physiotherapists, **155** specialists in physiotherapy, **217** biotechnologists, **38** public health specialists, **51** Ph.D. holders, a total of **5677** graduates and postgraduates). Our students are enriched with good clinical and community health knowledge, skills and competence. We are proud of our "**pravarites**" serving in India and abroad.

Road Ahead:

Pravara Institute of Medical Sciences – Deemed to be University, aspires to be "*The Centre of Excellence*" in Medical, Dental and allied Health Science education and is committed to improve health standards of this rural region. PIMS-Deemed to be University is making every possible effort to provide globally competent higher education and service to the rural society with a focus on empowerment of rural people for sustainable growth and development.

With the benign blessings of Padmashri Dr. Vitthalrao Vikhe Patil and Padmabhushan Dr. Balasaheb Vikhe Patil, Founder, President & Managing Trustee, PMT, Hon'ble Dr. Vijay

Kelkar, Padmavibhushan Awardee, and under the guidance and leadership of *Hon'ble Dr. Rajendra E. Vikhe Patil, Chancellor, PIMS-DU*, we are marching towards our goal – to create “A Healthy Society”.

PIMS-DU has grown over the years since its establishment in 2003 and recorded developmental milestones. It strives for global excellence. We believe in expansion, consolidation as well to grow and develop ahead to achieve global excellence, as per global and national expectations, trends and challenges.

We believe in continuous improvement and much ahead towards excellence in all our endeavors. Hence we subject ourselves for continuous regulation and monitoring by statutory bodies – MCI, DCI, INC and UGC. We subjected ourselves for assessment by NAAC in 2017 and got accredited at ‘A’ grade with CGPA 3.17. We also subjected ourselves for UGCs Review of Deemed University in 2017 with a good commendation for our significant growth and development.

PIMS-DU Subjected it self under National Institutional Ranking Framework 2019 and got placed in the rank band of 101-150 among Universities of India and in the rank band of 151-200 among all the Institutions of India.

We are hereby presenting the Annual Report of Pravara Institute of Medical Sciences-Deemed to be University for the year 2020-21.

Parent Trust : Pravara Medical Trust

Padmashree Dr.
Vitthalrao Vikhe Patil, an
enlightened peasant cared deeply
for the well-being of the poor and
the disadvantaged who were
suffering greatly due to the lack
of qualified medical help in this
remote rural part of Maharashtra.

The Pravara Medical Trust was established in 1972 as a part of promotive efforts of an Integrated Rural Development Model (widely known as PRAVARA MODEL). With the vision to "Improve the quality of life" of the rural people, especially women and children by providing comprehensive health care to the village people. The promoters of the Trust were fully aware of the fact that health is an integral component of overall development. While the network of industrial, educational and "People"s Organizations" were being promoted in the area, an integrated comprehensive health care system had become imperative for achieving this goal.

Over a period, the area of service has been widened because of the emergence of a full-fledged Medical Complex. Today the complex caters to the health needs of entire Ahmednagar and the neighboring districts of Nashik, Beed, Aurangabad, Dhule and Pune. However, the other services of the model, including medical

education, training and research have been spread at National as well as International levels.

Establishment of University:

Pravara Institute of Medical Sciences Deemed to be University was established under Section (3) of the University Grants Commission (UGC) Act 1956 on 29th September, 2003 by Government of India, Ministry of Human Resource Development vide notification No. F.9-11/2000-U-3.

Part of a Rural Development Model:

Pravara Institute of Medical Sciences (Deemed to be University) is unique as it is not a standalone institution, but it is a part of the Rural Development model, which has a goal of “Sustainable Development through Integrated and Holistic Approach”.

Objectives:

The objectives for which 'the University' established are:

1) To Promote and provide

- i) Instruction, Knowledge, Education, Training and Research facilities of high order in the areas of study relevant to Medicine, Health and Allied Sciences, Humanities, Science, Arts, Commerce, Engineering, Pharmacy, Management, Education etc and its inter-disciplinary areas as per its current status and such other manner as may develop in future.
- ii) Facilities to develop Entrepreneurship and Human Resource required in the Health Care, Health Management, Biosciences, Biotechnology, Humanities, Science, Arts, Commerce, Engineering, Pharmacy, Management, Education etc and its interdisciplinary related areas through formal or distance education with the prior approval of the UGC / Government of India.
- iii) Appropriate, Innovative, Need Based Programmers of teaching and learning which shall be student centered, problem-based, community oriented in Under graduate, Post graduate and doctoral levels so as to set a high standard of Medical, Health, Allied Sciences, Humanities, Science, Arts, Commerce, Engineering, Pharmacy, Management, Education etc. and its interdisciplinary related areas with the prior approval of the UGC/Government of India.
- iv) Research relevant to current and emerging fields of Medicine, Health and Allied Sciences, Humanities, Science, Arts, Commerce, Engineering, Pharmacy, Management, Education and its interdisciplinary related areas.
- v) Opportunities for the integration of formal and non formal learning with practical experience in medical and health sciences with other areas of human development, such as Humanities, Science, Arts, Commerce, Engineering, Pharmacy, Management, Education etc. and its interdisciplinary related areas.
- vi) Programmes of extension work in the fields of Medicine, Human Health and Allied Sciences, Humanities, Science, Arts, Commerce, Engineering, Pharmacy, Management, Education etc. and their inter- disciplinary areas to achieve the overall human development, within the country and abroad.
- vii) Opportunities to facilitate collaborations, networking with International and National level Universities / Institutes / Organizations / Foundations for promotion, advancement and sharing of academic and research knowledge and activities in Medicine, Health, Allied

Sciences, Humanities, Science, Arts, Commerce, Engineering, Pharmacy, Management, Education and their inter- disciplinary areas for development of mankind in India and abroad.

- viii) All possible arrangements for national and global participation in the fields of Medicine, Health Management and Allied Sciences, Humanities, Science, Arts, Commerce, Engineering, Pharmacy, Management, Education etc. and their inter- disciplinary areas.
- 2. To function as a Global level learning resource center in the fields of Medicine, Health, Management and Allied Sciences.
- 3. To serve and work towards improvement and development of rural life and the general population
- 4. To accomplish the mission and vision enunciated by the founders of the "Pravara Medical Trust, Loni"
- 5. To do all such other acts and things as may be necessary or desirable to further the objects of 'the University.
- 6. To undertake all such activities as may be incidental and necessary or conducive to the attainment of all or any of the objects of 'the University' referred to or implied above.

Rural Nature of the University:

Loni is an obscure village situated in a drought prone area of Ahmednagar District (Maharashtra State), far away from the metropolitan cities and industrial zones. The Deemed to be University and its all constituent institutions are located in this village Loni, a single campus. Loni is a village with Gram-Panchayat having 35,022 populations as per 2011 census. The Taluka place, Rahata is 20 kms away and the district headquarter, Ahmednagar is 70 kms away. The nearest railway station, Belapur is 25 kms away. The Manmad Railway Junction is 85 kms. & the nearest airport, Aurangabad and Shirdi are 130 kms and 20 kms away respectively.

Health care as a component of overall development:

Health is an important component of this Comprehensive Rural Development Model. Overall development is achieved through healthy individuals and families. Poverty, illiteracy, diseases and inertia among the poor people are inter-linked by forces, which need to be broken for the sustainable development. Therefore, a "Comprehensive Rural Health Care System" was evolved to meet the health care needs of the rural community and was an integral part of the on-going developmental activities of agriculture, agro-based industries, rural financing and education.

Genesis of University:

The origin of establishing an University extends in the developmental model evolved by visionary Padmashree Dr. Vitthalrao Vikhe Patil, which is based on the integrated, holistic approach to solve the problems of rural people. Loni was an obscure village situated in a drought

prone area of Ahmednagar District (Maharashtra State), far away from the metropolitan cities and industrial zones.

While working with the rural masses, Padmashree Dr. Vitthalrao Vikhe Patil realized the urgent need for organized activities in many social areas to build a healthy, industrious and prosperous society. A comprehensive rural health care model was the natural consequence of this realisation. In a society where health care facilities were inadequate and inaccessible to the poor, the Pravara Medical Trust - the parent body of this Deemed to be University was established in 1972 in a village called Loni.

The Pravara Medical Trust, the parent trust of the university started providing primary and secondary level medical care from 1976 with the establishment of 100-bed hospital. Over a period of time, the Pravara Rural Hospital grew into a 1275-bedded multi disciplinary, super specialty medical institute with other ancillary facilities. The hospital has now emerged as a referral-teaching institute for this region providing health care covering 25 lakhs people.

This University has the same status as that of other Statutory Universities in India. The degrees, diplomas and certificates awarded by the University have approval of the Government of India, Govt. of Maharashtra and other states as well as the University Grants commission (UGC), Medical Council of India (MCI) Dental Council of India (DCI), All India Physiotherapists Association (AIPA) Rehabilitation Council of India (RCI) and Indian Nursing Council (INC).

The University is unique in more than one way. It is specialized in Medical and Health Sciences with a dedication to serve the society as a Center of Excellence with emphasis on socially meaningful medical Education, Health Care and Research.

The Institution has received accolades from His Excellency Dr. A.P.J. Abdul Kalam, President of India for the pioneer work done in the field of integrated rural Development and appreciated the participative model of Integrated Rural Development followed at Loni as Role Model for the development of Rural India and has been referred by his Excellency as operative model of **PURA**- Providing Urban Amenities to Rural Area. We have further strengthened community oriented medical education methodology through which students interact with rural masses and study their health problems and socio-economic development, throughout their graduation and Post-graduation-training period.

The University always emphasizes on socially meaningful medical education, need based research programmes, and quality health care for the people. The globalization of education and health care needs are addressed while designing and delivering the education to the medical students. Therefore, the University has tailored the academic programmes of all constituent institutions to meet global as well as local needs of quality education. Appropriate, need based, up-to-date knowledge and skills are imparted to the undergraduate as well as postgraduate students. The recommendations of the regulatory authorities are followed while evolving the

innovative ideas, curriculum revision and teaching methodology for imparting quality education to the students.

Activities of Pravara Institute of Medical Sciences (DU)

Introduction

University Grants Commission, Ministry of Human Resource Development, Govt. of India recognized the academic excellence achieved and the quality of medical care rendered to the rural community since 1982 and granted Pravara Institute of Medical Sciences “Deemed to be University” status vide their **notification No. F-9-11/2000-U-3 dated 29th September, 2003.**

The academic and research activities of the university were reviewed by University Grants Commission in year 2006, 2009 and after their evaluation, Deemed to be University status has been continued further for a period of five years. Namely 2009-2014.

The PIMS (Deemed to be University) was accredited by NAAC in 2017 and awarded ‘A’ grade with CGPA of 3.17.

This Institution has the status of Deemed to be Universities in India. The degrees, diplomas and certificates awarded by the University have approval of the Government of India, Govt. of Maharashtra and other states as well as the University Grants Commission (UGC), Medical Council of India (MCI) Dental Council of India (DCI), All India Physiotherapists Association (AIPA) Rehabilitation Council of India (RCI) and Indian Nursing Council (INC).

The University is unique in more than one way. It is specialized in Medical and Health Sciences with a dedication to serve the society as a “Center of Excellence” with emphasis on socially meaningful medical education, health care and research.

The sponsoring & parent Trust, Pravara Medical Trust, has received accolades from His Excellency Dr.A.P.J. Abdul Kalam, President of India for the pioneer work done in the field of integrated rural Development and appreciated the participative model of Integrated Rural Development followed at Loni as “Role Model” for the development of Rural India and has been referred by his Excellency as an operative model of **“PURA”-Providing Urban Amenities to Rural Area.**

We have further strengthened community oriented medical education methodology through which students interact with rural masses and study their health problems and socio-economic development, throughout their graduation and post- graduation-training period.

The University always emphasizes on socially meaningful medical education, need based research programmes, and quality health care for the people. The globalization of education and

health care needs are addressed while designing and delivering the education to the medical students. Therefore, the University has tailored the academic programmes of all constituent institutions to meet global as well as local needs of quality education. Appropriate, need based, up-to-date knowledge and skills are imparted to the undergraduate as well as postgraduate students. The recommendations of the regulatory authorities are followed while evolving innovative ideas, curriculum revision and teaching methodology for imparting quality education to the students.

Research Activities

Dr. Rahul Kunkulol
Research & Development Cell

Research is an integral part of any academic, non-academic learning, innovations and developmental activities integrated with problem based teaching and learning process. Research has always been a priority area in every discipline of medical, dental and allied health sciences at Pravara Institute of Medical Sciences (Deemed University) due to factors like high incidence of communicable diseases amongst rural masses along with emerging and re-emerging diseases, increasing incidence of non – communicable diseases and inadequate health care delivery system.

Research is also considered as an essential dimension for the growth and development of the institute. All research projects are carefully screened for quality, need based and their application in the rural health care delivery system. Multi disciplinary projects addressing the contemporary issues of medical and health sciences applicable to rural health remain on priority.

The element of research is inducted to medical students when they are in their 2nd M.B.B.S in the form of simple applied projects. More complex research tasks are given to them while undergoing their internship.

To appreciate the efforts of researchers within the University, the Chancellor Trophy has been instituted for the best research paper of the year, along with a cash prize for the first author.

For the year 2022-2023 "The Chancellor's Rolling Trophy for Best Research Paper 2022-23" was awarded to Dr. Rahul Kunkulol of Director Research & Development Cell and Professor & HOD of Pharmacology, The trophy was awarded on 29th Sept. 2023 at Anniversary Function of PIMS -DU.

Tobacco Research Cessation Center (TRCC) Pravara Medical Trust Loni

The Pravara Rural Hospital, Loni has started a new Tobacco Research & Cessation Clinic at Pravara Hospital, Loni. Tobacco is the cause of heart diseases, impotence, cancers and various other diseases. It is found that young and old alike are getting addicted to tobacco in greater numbers. Once addicted it is very difficult to give up the habit of tobacco.

Pravara hospital has been providing behavioral therapy, pharmacotherapy and nicotine replacement therapy to promote cessation. Research Projects also have been carried out in the community to stop this menace from spreading.

This clinic has been functional since 25th August 2021 and many students, Patients have been benefited by the cafeteria approach of Management of Tobacco addiction.

This initiative is an attempt to continue with the motto of our trust of providing service to rural masses.

Following activities carried out under TRCC, PMT, Loni

1. Tobacco Cessation support to patients through Tobacco cessation Clinic- Nicotine replacement therapy, Pharmacotherapy and Behavioral Therapy.
2. Awareness programs for Tobacco Cessation in community.
3. Tobacco Research through faculty research.
4. Tobacco Research through Fellowship Programme in Tobacco Cessation at TRCC-PMT Loni
5. Training of research fellows in tobacco cessation.

Maintenance Policy and Procedure:

All the maintenance is carried out in-house by the IT department. Only annual maintenance contract for all servers, NAS storage has been given to external agency. In house support provided to the application software issues reported by end users, network issues and printer issues reported by end users. The user has to log the complaint through web based application.

Complaint Handling Mechanism:

The complaint lodged by user through the web based application is initially transferred to Computer Maintenance supervisor. Maintenance supervisor forward complaint to concern engineer depending upon nature of complaint. The user can check status of complaint at any given point of time from his owned department through same web based application.

Introduction :

In pursuance of its Action Plan for performance evaluation, assessment and accreditation and quality up-gradation of institutions of higher education, the National Assessment and Accreditation Council (NAAC), Bangalore proposes that every accredited institution should establish an Internal Quality Assurance Cell (IQAC) as a quality sustenance measure. Since quality enhancement is a continuous process, the IQAC will become a part of the institution's system and work towards realization of the goals of quality enhancement and sustenance. The

prime task of the IQAC is to develop a system for conscious, consistent and catalytic improvement in the overall performance of institutions. For this, during the post-accreditation period, institutions need to channelize its efforts and measures towards promoting the holistic academic excellence including the peer committee recommendations. **IQAC – Vision** To ensure quality culture as the prime concern for the Higher Education Institutions through institutionalizing and internalizing all the initiatives taken with internal and external support.

Objective *The primary aim of IQAC is*

- ☐ To develop a system for conscious, consistent and catalytic action to improve the academic and administrative performance of the institution.
- ☐ To promote measures for institutional functioning towards quality enhancement through internalization of quality culture and institutionalization of best practices.

Strategies *IQAC shall evolve mechanisms and procedures for*

- a) Ensuring timely, efficient and progressive performance of academic, administrative and financial tasks;
- b) Relevant and quality academic/ research programmes; c) Equitable access to and affordability of academic programmes for various sections of society; d) Optimization and integration of modern methods of teaching and learning; e) The credibility of assessment and evaluation process; f) Ensuring the adequacy, maintenance and proper allocation of support structure and services; g) Sharing of research findings and networking with other institutions in India and abroad.

Functions

Some of the functions expected of the IQAC are:

- a) Development and application of quality benchmarks
- b) Parameters for various academic and administrative activities of the institution;
- c) Facilitating the creation of a learner-centric environment conducive to quality education and faculty maturation to adopt the required knowledge and technology for participatory teaching and learning process;
- d) Collection and analysis of feedback from all stakeholders on quality-related institutional processes;
- d) Dissemination of information on various quality parameters to all stakeholders;
- e) Organization of inter and intra institutional workshops, seminars on quality related themes and promotion of quality circles;
- f) Documentation of the various programmes/activities leading to quality improvement;

- g) Acting as a nodal agency of the Institution for coordinating quality-related activities, including adoption and dissemination of best practices;
- h) Development and maintenance of institutional database through MIS for the purpose of maintaining /enhancing the institutional quality;
- i) Periodical conduct of Academic and Administrative Audit and its follow-up
- j) Preparation and submission of the Annual Quality Assurance Report (AQAR) as per guidelines and parameters of NAAC.

Benefits

IQAC will facilitate / contribute to

- a) Ensure clarity and focus in institutional functioning towards quality enhancement;
- b) Ensure internalization of the quality culture;
- c) Ensure enhancement and coordination among various activities of the institution and institutionalize all good practices;
- d) Provide a sound basis for decision-making to improve institutional functioning;
- e) Act as a dynamic system for quality changes in HEIs;
- f) Build an organized methodology of documentation and internal communication.

Composition of the IQAC

IQAC may be constituted in every institution under the Chairmanship of the Head of the institution with heads of important academic and administrative units and a few teachers and a few distinguished educationists and representatives of local management and stakeholders. The composition of the IQAC will depend on the size and complexity of the institution, accordingly the representation of teachers may vary. It helps the institutions in planning and monitoring. IQAC also gives stakeholders or beneficiaries a cross-sectional participation in the institution's quality enhancement activities.

The membership of such nominated members shall be for a period of two years. The IQAC shall meet at least once in every quarter. The quorum for the meeting shall be two-third of the total number of members. The agenda, minutes and Action Taken Reports are to be documented with official signatures and maintained electronically in a retrievable format. The composition of the IQAC may be as follows: 1. Chairperson: Head of the Institution 2. Teachers to represent all level (Three to six) 3. One member from the Management 4. Few Senior administrative officers 5. One nominee each from local society, Students and Alumni 6. One nominee each from Employers /Industrialists/Stakeholders 7. International Collaborations

Sanjeev G. Kulkarni

Associate Professor in Microbiology
Incharge, Directorate of International Relations

Pravara Institute of Medical Sciences - Deemed to be University has continued to provide the international experience to its students and faculty as per the New Education Policy. PIMS-DU has strived to develop long standing academic and research partnerships with its collaborators. PIMS - DU has celebrated more than **10 years of its academic and research partnership its international collaborators**. PIMS DU has also taken initiatives to explore the avenues of international funding for exchange of staff and student programme.

International students have been actively participating in the electives and international faculty render their expertise by participating in teaching activities, guiding PhD students, delivering Guest Lectures, organizing workshops for the students and faculty of PIMS-DU. Participation of the international students in the International Certificate Course in Social Health and Development from all over the world, is very encouraging. This enhance the teaching learning process of our students at PIMS DU

PIMS University, since its inception, through international collaboration, has been striving hard to seek international exposure for the students making them GLOBAL CITIZENS of the world.

The University seeks its inspiration from Founder Father of PIMS DU, **Late Padmabhushan Dr. Balasaheb Vikhe Patil**, Former Union Minister for Heavy Industries and Public Enterprise, Govt of India, to bring in International exposure to our students and upgrade the health care delivery system through the co-operation of International faculty, at this university, situated in the rural area.

The activities of Directorate of International Relations are implemented under the guidance of **Dr. Rajendra E Vikhe Patil, Hon'ble Chancellor PIMS-DU & President PIMS, Trust, and Dr V N Magare, Vice Chancellor, PIMS-DU** and International Coordination Committee from time to time.

Preamble

Improvement in quality of medical education by sensitizing teachers and students in medical education technology for developing skills required for a good teacher, clinician, researcher and mentor

Aims & Objectives

1. Plan & Organize revised basic course in MET (Medical Education Technology) for faculty in coordination with MCI regional center, MUHS, Nashik
2. Inculcating Values in health care among faculty using spiritual approach.
3. To train faculty in implementation of competency based curriculum (CBME) by training members of curriculum committee and faculty in CISP (Curriculum Implementation Support Programme) at MCI Nodal / Regional Centers / at college level.
4. To organize "Foundation Course" for First MBBS students from August 2019 MBBS batch onwards, for one month, as per NMC guidelines.

Educational Material

There are 2 Journals, 26 books, 68 educational CDs & 76 operational CDs related to Medical Education. Learning resources comprising of PPTs, e-books, question papers for UG and PG, e-resources in library are put on TCS software of institute which student/faculty can access anytime using username and password.

Preamble:

Traditionally the teaching process had been classroom-based and involves didactic lectures and demonstrations in the classrooms and in the laboratory. This had a drawback of strict time schedules for the classes and at times became monotonous. Although revisions are organized, they are not at the convenience of the learners. Further, the resources available were based on what was available on site and textbooks in the library.

With the advent of information technology in the teaching and learning process, the access to resources available has improved vastly and the teachers, as well as the students, can access resources in digital form across the globe. Further, with the banning of live animal experiments in the classrooms, the necessity to use computer animated experiments and videos of the procedures in teaching in the health sciences colleges has become mandatory.

A learning management system (LMS) is a software application for the administration, documentation, tracking, reporting, automation and delivery of educational courses, training programs, or learning and development programs. The learning management system concept emerged directly from e-Learning.

This Learning and e-learning will bring about behavioral changes in the pupils when subjected to instructions.

The very purpose of e-learning is to increase the capacity of intelligence amongst the pupils. Learning Management System comprises of the following---

Aims and Objectives

The aim of creating E-learning access to users is to make the resources available in digital format which can be accessed anytime from anywhere. This gives the individual access to the resources in their time of choosing which will result in better uptake and acceptance. The resources whether they are online or offline should be available to the user round the clock which will boost the usage and benefit the individuals.

To provide resources in the form of E-books, E-journals, DVDs and also online access to various journals and other resources from various agencies to provide a plethora of material to the users. To provide a platform with rich resources for the benefit of teachers and the learners with the provision of a robust Learning Management System to monitor and deliver the best quality of education.

To provide the required infrastructure for implementation of the same so as to make the campus to be in tune with the present time.

To improve and integrate all teaching modalities with e-resources in the classroom and the laboratories.

To deliver and manage all types of content, including video, courses, and documents and impart a variety of functionality that is similar to corporate but will have features such as teacher and instructor-facilitated learning, a discussion board, and often the use of a syllabus.

To deliver and manage Teaching-learning, evaluation and feedback

To create the blended type of teaching which involves both traditional and E-Learning To provide training to all faculty to use technology in teaching-learning

To create streamlined communication between learners and instructors and congruency between students and teachers.

Teaching and learning centre or e-learning mandated to promote a continuous basis of new Pedagogical practices, methodology of forming discipline-specific curricula.

Faculty:

The faculty of the university has been actively involved in upgrading their competence in handling e-resources. Most of the faculty have been trained through workshops on ICT enabled teaching and learning methods by IQAC in collaboration with Medical Education Unit. The IT department of the University is instrumental in providing and maintaining the resources.

Some of the faculty completed SWAYAM courses, MOOC's training, YouTube Channel and use e-learning platforms like Google Meet, Zoom, Microsoft teams, A-Z Recorder, Whatsapp, Facebook Live to deliver and manage Teaching-learning, evaluation and feedback

Infrastructure:

The resources available in the University include the physical-digital collection of DVDs of various medical kinds of literature, DVDs from various CMEs and conferences and workshops which are available in the digital section of the University Library. Each department has its own resources of lectures and PowerPoint presentations of the syllabus and DVDs which demonstrate the various procedures. In addition, the University has collaborated with various e-resources and libraries and has subscribed to the following resources which are accessible through the University Digital/ Internet section in the library.

All these resources are accessible through the University website through the link to the library page. E-books and journals can be accessed and downloaded if needed.

The online mode can be accessed through the university IP address on the campus including the library and the hostels which are Wi-Fi enabled.

The lecture halls are enabled for e-teaching with an AV facility and access to the internet. The operation theatres also can be connected to these lecture halls for live projections.

1. Wi-fi enabled classrooms
2. LCD projectors
3. Google meet
4. Google Classrooms
5. ZOOM enabled Systems
6. Google slides
7. Youtube Videos
8. Kahoot
9. Quizzes
10. Microsoft Teams enabled systems
11. Dual PA Wireless Microphone

Functions:

E-learning cell works under a designated authority that, along with the faculty and MET cell. They try and add more facilities to the repository of resources. Constant interaction with the IT department for up-gradation of the hardware to suit the requirements.

Monitoring and implementation of the system through LMS.

Analysis of usage and remedial actions.

Conducting meetings twice a year to update, aware, train and practice faculty with the technical aspect

Encourage faculty to train in platforms like E-learning, MOOC's, SWAYAM, Google Meet, Zoom, Microsoft teams, A-Z Recorder, Whatsapp, Facebook Live

Work carried out:

The e-resources through the libraries and the publishers are monitored for usage and have been made user friendly by making them all accessible through the University IP address. All new first-year admitted students of the University were introduced to e-learning methods during their respective institutions. The interactive sessions were a great success. The exam going undergraduate students were demonstrated with the models and different appliances on MS teams.

The case discussions, journal clubs and seminars of the PG students were taken on Zoom and MS teams.

The webinars were attended by the faculty on Google meet and Google Duo. The faculty attended the Virtual online conferences on Zoom.

The faculty was also engaged in Virtual discussions and Faculty Development programmes like Research Methodology, ICT enabled teaching and learning strategies.

Quizzes and Lectures were also organized using Kahoot and MS teams.

Internal assessments are done through an online format

Evaluation is also by Google Form

Live training and webinars/conferences/workshops have been attended to gain knowledge regarding the online teaching model.

The College of Nursing on the occasion of "International Mental Health Day" which was on 10.10.2020 organized online competitions like painting, essay, Short film, etc and distributed e certificates to all winners and participants through certify'm add on application.

Promotion of Usage:

Usage of the resources is analysed monthly, to understand the usage pattern and required corrective action is taken to facilitate optimum usage. Data is also analysed department wise to get a better insight. Usage of other digital material in the library is also analysed and action is taken as required.

The participants are given credit points and promoted online competitions and quiz through e Certificates and testimonials

A video on How to use different modules was shared with everyone through YouTube link

Achievements:

With constant encouragement and awareness campaigns along with focused workshops, the usage of E-learning resources has gone up. Availability of Wi-Fi on the campus is additional support in this endeavour by the addition of E-enabled classrooms the reach has been extended. Few are with the smartboard as well.

During the lockdown due to COVID 19 pandemic, the UG and PG activities were carried out smoothly through online mode. Faculties were introduced to newer methods of teaching and learning. They were also encouraged to carry out the teaching and learning activities online. Many Faculty attended and trained through E-Learning and MOOC'S Workshop organized by PIMS DU

YouTube channels were created by various departments to promote Academic activities.

Salient Features:

With the addition of online and offline availability of resources, the students are able to

access the contents at their own time and place. Each user has been given a separate user id and password and hence individual student's usage profiles and progress can be assessed. In the clinical learning package, the teacher can allot separate individual assignments to the students and monitor progress. There is provision for interaction as well.

LMS enhances the capacity building of both teacher and learner

LMS is user friendly

LMS covers a large number of students within a short time

Managing users, courses, roles and generating reports

Making Course Calendar

Messaging and notifications

Assessments that can handle pre/post-testing

Administration

Certifications and display of employees scores and transcripts

Instructor-led course management.

Innovations:

Usage of the available resources in the typical classroom and outside has made learning seamless and at the time the student chooses. Process of assessing the students based on the modules help in motivating the students to focus on the subject.

Programming periodical quiz and competitions and awards for performance in them have enhanced the uptake.

Many of the faculty from PIMSDU have created YouTube channels and promoted videos through link. For making educational videos more creative thumbnail has been added. Educational Videos are edited in such a manner which creates interest among students by adding Animations and stickers.

Adaptive learning—is when a learning process and curriculum is adapted for specific students, his need and level of knowledge.

Microlearning—means that the learning process is divided into small chunks that are easy to consume and cover a specific topic.

Mobile Learning

Self-directed learning—Student goes through the course at his /her own pace and order.

Students can manage their learning process and pass it in the most comfortable way. **Blended**

Learning—(Hybrid learning)—Integration of digital technologies and traditional offline learning.

Artificial intelligence and chatbox--

Social learning

Gamification and game-based learning

Best practices:

Introduction of e-resources and incorporating them in the teaching-learning process thus enhancing the quality of teaching.

Periodic evaluation involving other institutions also gives a comparative standing of our students.

Based on the feedback and results, the approach to teaching and learning is modified. The use of Whatsapp group by faculty to share e-learning resources for students have enhanced the learning gain.

PIMSDU has started online exams through Google Form as formative and Internal assessment.

PIMSDU has also started online competitions like painting, essays, Short films, etc. College of Nursing has promoted admission forms through Google Form

Future Plans:

With an aim to continue with our efforts to improve the quality of the learning resources available with the University, the following steps are being taken for implementation.

Online Examination and Evaluation System

Online Internal Assessment and Tracking of student attendance system

Every faculty should have individual/departmental/subject wise YouTube

Channel Preparation of simulation videos as per subjects/specialization

Organization of workshops/workshop/CNE/conference with International

Faculty/University through E-Learning/Virtual Mode

To utilise the online facilities of e-learning and trained faculty for continuous education and evaluation and regular interaction with students and professionals for the exchange of current concepts and knowledge.

Preamble:

The undergraduate medical education program is currently modulated and designed with a goal to create an medical graduate possessing requisite knowledge, skills, attitudes, values and responsiveness, so that he may function appropriately and effectively as a doctor of first contact of the community while being globally relevant. There are many new key areas recommended in the ATCOM module that were identified for implementation across the entire duration of the course.

In extent of order the medical graduate is not just physician but he is also leader of society, communicator as well as counselor, lifelong learner and professional who is committed for the best, ethical, responsive and accountable to society. Physician is not only person concerned with curative approach but also accountable for preventive care, holistic care, promotive and palliative care of community.

Bioethics is now at the center stage of medical education. Horizontally and vertically integrated bioethics curriculum have been designed by the foundation of the UNESCO , Bioethics core

curriculum. The similar guidelines are adopted by Medical council of India and reflected in their ATCOM Module as well as MCI vision 2015 documents. Pravara Institute of Medical Sciences (DU) has decided to implement this concept in all its unit. Therefore the Bioethics Unit has been established in University during academic year 2015 -16. NSS REGULAR ACTIVITY REPORT

YEAR 2022-23

Dr. Sunil Bular
NSS Coordinator PIMS DU

Every NSS volunteer aspires to follow the essence of the National Service Scheme, that is, 'Education through Service'. At a time when the world is ridden with uncertainties and disintegration of the social fabric, the guiding ideals of NSS assume great significance when it comes to upholding social service and appreciation of other person's point of view.

Upholding the motto of Not Me But You, NSS Units of our Colleges have organized several activities and programs in the year 2022-23, which are in tune with student's personal development and their selfless services for the welfare of the institution and the society. Under the able leadership of NSS Programme Officers Dr. Sujata Muneshwar, Dr. Prashant Viragi, Dr. TejasSuryavanshi and Mrs. Sujata Umbarkar NSS Units were able to contribute too many flagship programs including Swachh Bharat Abhiyan, Poshan Pakhwada, Ek Bharat Shrestha Bharat, HarGharTiranga Campaign under the aegis of AzadikaAmritMahotsav both inside and outside the college campus.
