

## ‘NEP 2020 awareness through videos by Student Stories’

The NEP Cell of PIMS (DU) initiated a student-led video storytelling project titled "**Vision to Reality: NEP 2020 Through Student Stories**". Students from various institutions under the university were invited to create short awareness videos on NEP-related themes, showcasing schemes and reforms in the context of higher education. The objective of this activity is to promote awareness of the National Education Policy (NEP) 2020 among students and faculty and to encourage students to creatively engage with NEP 2020 initiatives and reforms.
