

**Pravara Institute of Medical Sciences  
(Deemed University)  
Centre For Social Medicine**

**A training program on the Application of CareMother Kit  
for  
Arogya Mitras, Medical Officers and Gynecologist  
February 8 , 2017**

Centre for Social Medicine has organized **A training program on the Application of CareMother Kit, MHealth & Web Component** to the Arogya Mitras, Medical Officers and Gynecologist.

CSM introduced an innovative product CareMother Kit (Point of Care Diagnostic Devices) which can be carried easily by "Arogya Mitras" (Community Health Workers) to administer required medical tests like Hemoglobin, Blood Pressure, Blood Sugar, Urine Protein, Weight, Fetal Heart Rate and Temperature using a digital devices at three Gram Arogya Banks - Tisgaonwadi, Galnimb and Chandrapur. All this data is collected, stored through a mobile application and analysed and transferred through web application to our MOs of Rural Health Centres and Gynecologist at Pravara Rural Hospital.

This pilot study will be covering 250 ANCs spread over seven villages.

A training program on the Application of CareMother Kit, MHealth & Web Component to the Arogya Mitras, Medical Officers and Gynecologist was organized by CareNx Innovations Pvt. Ltd, IIT Powai, Mumbai on 8th Feb. 2017. As many as nine Arogya Mitras, three MOs and a Gynecologist, PRH (Dr.V.B. Bangal) have attended the training program.
