**Post Graduation at CON is more than just getting a good degree**

CON a constituent unit of PIMS, established in 1986 is located at the blissful rural village of Loni, Ahmednagar, Maharashtra. By taking a PG admission at CON you will be making the first step towards success in "Life". Our educational pattern is with a vision to improve quality of health services in rural areas and a mission to serve globally by transforming nursing graduates towards a successful international career.

During PG study, one will have the opportunity to gain rich experience in your field of specialisation through a strong practical training program. Also we provide PG students with a strong intellectual work place rather than nearly performing routine work. We offer PG in five nursing specialisations as follows:

- Medical Surgical Nursing
- Child Health Nursing (Pediatric)
- Community Health Nursing
- Obstetric and Gynaecological Nursing
- Mental Health Nursing

## STATE LEVEL WORKSHOP ON RESEARCH METHODOLOGY

Theme: "Nursing Research: A step towards Evidence Based Practice"

11<sup>th</sup> - 12<sup>th</sup> November 2019

• Organized By •

Pravara Institute of Medical Sciences (DU)  
College of Nursing

• Venue •

Multipurpose Hall, CON

Loni-413736, Tal: Rahata, Dist: Ahmednagar  
(Maharashtra)

Esteemed Colleagues

Today nursing has advanced in equivalence to other professions. Yet due recognition is still sought with struggle, as nurses lag behind in consistent validation of their clinical practice, based on evidence from conscientious research in their daily professional life. This research workshop is a platform for staff nurses, final year Under Graduates (UG), Post Graduates (PG), faculty, researchers and leaders to collaborate on promoting nursing research – an area that faces hesitancy in clinical nursing in India.

We have developed this workshop as a premier event with your clinical interests and Post Graduate syllabus in mind. This will not only increase the number of opportunities for you to network with colleagues across the State, but will also enhance more focused research that feature current trends through cutting edge presentations, special activities, livelier interaction with researchers and experts.

On completion you can arm yourself with adequate confidence to take your institutional research score to the next level. For PGs this workshop will guide their research journey towards its aim of developing an interest in research than just being attempted as a mandatory assignment, on different aspects of nursing care, which is aptly expressed in the theme “Future Enhancement and Best Practices in Nursing Care

We look forward to your gracious presence and contribution to this special workshop. We assure you that every possible effort is being made to see that your visit to Loni proves to be meaningful, productive and memorable.

## Aim

We aim to enable recognition of enhanced opportunities available in hospitals and health care system for nursing fraternity towards research and pursue evidence based skill practices based on research to execute quality care.

## Objectives

This workshop is designed to ensure that on completion the participants should be able to:

- Gain in depth knowledge on research methodology steps
- Enquire relevant research question and prepare research statement
- Identify research variables clean
- Examine various databases available in library, media and online in order to synthesize the essence of scientific knowledge as ROL
- Acquire confidence in writing research proposal and research report
- Perform suitable and basic statistical tests
- Appreciate the role of bio ethics in nursing research

## Why to Attend?

- It gives a broad spectrum on nursing research domain
- Participants can explore the leading edge in research and create network for multi centric evidence based activities in hospitals with more confidence from training in workshop
- Nursing community can reap huge benefits for an UG / PG interested in embarking on a nursing research career in India
